

Subject Index: Volume 26, 2001

- Acetylcholinesterase inhibitor with clonidine, for intraarticular postoperative analgesia, 342
- Acute inflammatory pain, gabapentin effects on, 322
- Adenosine, in cutaneous hyperalgesia, 414
- Adrenergic agonist
- effects on tetrodotoxin-induced nerve block, 239
 - with mepivacaine, sympathetic block vasodilation and, 329
 - with neostigmine, for intraarticular postoperative analgesia, 342
 - premedication, maternal morphine requirement for Cesarean delivery and, 461
 - prevention of tourniquet pain during IVRA with lidocaine, 512
- Adrenergic antagonists, effects on tetrodotoxin-induced nerve block, 239
- Air, for epidural space identification, 383(letter)
- Alkalinization of ropivacaine, lumbar peridural block quality and, 357
- Allodynia
- adenosine effects on, 414
 - effects of gabapentin on, 322
- Ambulatory surgery
- axillary block, effect of impulse duration on, 428
 - bupivacaine wound infiltration during laparoscopy, 131
 - continuous peripheral nerve block for, 209
 - epidural 2-chloroprocaine versus lidocaine for, 35
 - femoral nerve block with bupivacaine for, 24
 - interscalene brachial plexus block, low-dose ropivacaine for, 439
 - intrathecal fentanyl-induced pruritus severity in, 252
 - spinal anesthesia with hypobaric bupivacaine for, 24
- Analgesia. *See specific analgesics*
- Anastomotic dehiscence, epidural analgesia and, 111
- Anatomic considerations, for maxillary nerve block, 507
- Anesthetics. *See specific anesthetics*
- Anesthetic technique
- alkalinization of ropivacaine, lumbar peridural block quality and, 357
 - double versus triple injections, 499
 - effect of impulse duration in axillary block, 428
 - epidural saline washout, for reversal of epidural anesthesia, 246
 - failure to achieve consistent anesthesia and, 588(letter)
 - maxillary nerve block, anatomic considerations for, 507
 - multiple-injection, for axillary brachial plexus block, 12
 - paravenous saphenous nerve block, 504
 - single-segment needle-through-needle versus double-segment technique, 17
- Ankle block, complete versus selective, 184(letter)
- Anterior cruciate ligament repair
- femoral nerve block with bupivacaine for, 24
 - preemptive multimodal analgesia for, 125
- Anterior spinal artery syndrome, after postoperative epidural analgesia, 274
- Anticonvulsants
- for cluster headache treatment and prophylaxis, 373
 - effects on acute inflammatory pain, 322
- Arachnoid layer, in postdural puncture headache, 182(letter)
- Arterial blood flow, during sympathetic block, effect of clonidine addition on, 329
- Arthroscopy
- knee. *See* Knee arthroscopy
 - shoulder, interscalene brachial plexus block with low-dose ropivacaine, 439
- Axillary block, impulse duration effects on, 428
- Axillary brachial plexus block
- with bupivacaine and fentanyl, 434
 - multiple-injection technique for, 12
 - paresthesia versus nerve stimulation for, 100
 - with patient controlled analgesia, for complex regional pain syndrome type I, 68
 - using multiple nerve stimulation, 495
 - using peripheral nerve stimulation, 499
- Babcock, Wayne, spinal anesthesia and, 278
- Back pain
- diagnostic lumbosacral segmental nerve blocks with local anesthetics, 147
 - frequency and pattern of epidural steroid injections for, 5
 - radiofrequency denervation of sacroiliac joint for sacroiliac syndrome, 137
- Behavior
- effects of epidural anesthesia on, 527
 - effects of formalin concentration and inhalational anesthetics in formalin tests, 407
- Blood loss, during total knee replacement without tourniquet, hypotensive epidural anesthesia for, 105
- Book reviews
- Anesthesia & Perioperative Complications* (Benumof & Saidman), 283
 - Atlas of Pain Management Injection Techniques* (Waldman), 191
 - Basics of Anesthesia, 4E* (Stoelting & Miller), 190

 - Studying a Study and Testing a Test: How to Read the Medical Evidence* (Reigelman), 87

- Brachial catheter technique, for neuropathic cancer pain management, 572
- Brachial plexus block
- axillary. *See* Axillary brachial plexus block
 - continuous, for neuropathic cancer pain, 572
 - subclavian perivascular
 - local anesthetic with buprenorphine for, 352
 - peripheral nerve stimulation in, 478
- Brainstem, distance from intrathecal sufentanil injection site, effect of, 306
- Breast surgery pain
- epidural versus patient-controlled analgesia for, 444
 - regional block and oral mexiletine for, 223
- Bupivacaine
- analgesic efficacy during laparoscopy, 131
 - in femoral nerve block, for ACL repair, 24
 - with fentanyl
 - in axillary block, 434
 - pruritus severity and, 252
 - hyperbaric
 - injection flow rate and, 420
 - with low dose CSE for preeclampsia, 46
 - hypobaric, for spinal anesthesia, patient positioning and, 30
 - intermittent epidural, resolution of refractory erythremalgia, 488
 - intrathecal
 - with CSE for preeclampsia, 46
 - for labor pain, fetal heart rate abnormalities and, 257
 - low-dose, versus lidocaine for in vitro fertilization, 52
 - with sufentanil, effect of epinephrine addition on, 473
 - racemic, versus levobupivacaine, correction factor for, 91(letter)
 - with single-shot spinal, versus combined spinal and epidural anesthesia, 181(letter)
 - wound infiltration, during laparoscopy, 131
- Buprenorphine, with local anesthetic for brachial plexus block, 352
- Cancer pain
- celiac plexus block
 - endoscopic-ultrasound guided technique for, 159
 - reversible paraparesis after, 75
 - neuropathic
 - cervical continuous brachial plexus block, 572
 - continuous brachial plexus block for, 572
 - regional block and oral mexiletine for, 223
- Cannabis, medicinal usage of, 484
- Catheter
- brachial, for neuropathic cancer pain management, 572
 - epidural, confirmation of placement, 337
 - stimulating, for peripheral nerve block, 589(letter)
- Cathetergram, for epidural catheter localization, 337
- Celiac plexus block, neurolytic
- computed tomography for, 285(letter)
 - endoscopic-ultrasound guided technique for, 159
 - reversible paraplegia after, 75
- Central nervous system
- protein function alteration from general anesthetics, 267
 - sensitization, hyperalgesia, adenosine effects on, 414
- Cerebral blood flow, cerebrospinal fluid loss and, 401
- Cerebrospinal fluid
- leakage, aspiration and epidural blood patch for, 363
 - lipid soluble opioids in, 286
 - loss, cerebral vasodilatation and, 401
- Cervical epidural analgesia, lateral, safety/efficacy of, 89(letter)
- Cesarean delivery
- clonidine premedication, maternal morphine requirement for, 461
 - combined spinal and epidural anesthesia for Guillain-Barre syndrome patient, 174
 - futility of using sharp pinprick or cold to assess spinal or epidural anesthesia, 385(letter)
 - with low-dose spinal and combined spinal and epidural technique, 588(letter)
 - low-dose spinal anesthesia for, 180(letter), 181 (letter)
 - postoperative pain control
 - diclofenac and/or propacetamol with morphine PCA, 310
 - multimodal, 298
 - for preeclampsia, CSE with low dose intrathecal bupivacaine for, 46
- c-fos immunoreactivity, to formalin in awake and anesthetized rats, 407
- 2-Chloroprocaine, epidural
- versus lidocaine for knee arthroscopy, 35
 - usage changes in, 558
- Cigarette smoking, sympathetic block-induced vasodilation and, 41
- Clonidine
- addition, sympathetic block vasodilation with mepivacaine and, 329
 - effect on tetrodotoxin-induced nerve block, 239
 - intraarticular, with neostigmine, for postoperative analgesia, 342
 - versus ketamine, to prevent tourniquet pain, 512
 - premedication, maternal morphine requirement for Cesarean delivery, 461
 - in preterm-infant caudal anesthesia, postoperative apnea and, 83
- Clot signature analysis, prediction of hypercoagulability, 215
- Cluster headache, treatment and prophylaxis, gabapentin for, 373
- Combined spinal and epidural technique
- with intrathecal sufentanil for labor pain, fetal heart rate abnormalities and, 257
 - for labor and Cesarean delivery in Guillain-Barre syndrome patient, 174
 - with low dose intrathecal bupivacaine, for preeclampsia, 46
 - with low-dose spinal for Cesarean delivery, 588(letter)
 - single-segment needle-through-needle technique, versus double-segment technique, 17
 - versus single-shot spinal with bupivacaine, 181(letter)
 - ultrasound localization of epidural space, 64

- Complex regional pain syndrome type I, axillary brachial plexus block with patient controlled analgesia for, 68
- Complications
- disseminated intravascular coagulation after epidural anesthesia, epidural hematoma and, 383(letter)
 - fetal heart rate abnormalities after labor analgesia, 257
 - intrathecal fentanyl-induced pruritus, severity of, 252
 - tourniquet pain, clonidine versus ketamine for prevention of, 512
 - transient anterior spinal artery syndrome after postoperative epidural analgesia, 274
- Computed tomography
- cathetergram, for epidural catheter localization, 337
 - guidance
 - for CSF leak management, 363
 - for mandibular nerve block for trigeminal neuralgia, 382(letter)
 - for neurolytic celiac plexus block, 285(letter)
- Computers, digital cameras and, 164
- Continuous brachial plexus block, for neuropathic cancer pain, 572
- Continuous peripheral nerve block, for ambulatory surgery, 209
- Core temperature, epidural anesthesia effects on, 527
- Cortisol during labor, intrathecal sufentanil effects on, 545
- Decision-making process, epidural steroid injections for spinal pain, 2
- Deltoid twitch, as endpoint for intrascapular block, 182(letter), 183(letter)
- Dermatome map, for lumbosacral segmental nerve block analysis, 147
- Diagnostic nerve blocks, lumbosacral segmental with local anesthetics, 147
- Diclofenac, and/or propacetamol after Cesarean delivery for PCA patients, 310
- Digital cameras, overview of, 164
- Dipyrone, versus tramadol for post-hysterectomy analgesia, 118
- Disseminated intravascular coagulation after epidural anesthesia, epidural hematoma and, 383(letter)
- Dogs, sympathetic block vasodilation
- effect of clonidine addition on, 329
 - smoking effect on, 41
- Electroincorporation, for topical delivery of lidocaine, 229
- Electroporation, for topical delivery of lidocaine, 229
- Endoscopic-ultrasound guided technique, for neurolytic celiac plexus block, 159
- Epidural analgesia
- anastomotic leakage risk and, 111
 - intermittent bupivacaine, resolution of refractory erythralgia, 488
 - versus intravenous morphine patient-controlled analgesia, 444
 - for labor pain, maternal satisfaction and, 468
 - postoperative, transient anterior spinal artery syndrome and, 274
 - for postoperative paralytic ileus in schizophrenia, 456
 - preoperative versus intraoperative perineural analgesia for phantom limb pain, 316
- Epidural anesthesia. *See also* Combined spinal and epidural technique
- assessment, futility of using sharp pinprick or cold for, 385(letter)
 - catheter placement, confirmation of, 337
 - 2-chloroprocaine versus lidocaine for knee arthroscopy, 35
 - disseminated intravascular coagulation after, epidural hematoma and, 383(letter)
 - effects on thermal sensation, 527
 - hypotensive, for total knee replacement without tourniquet, 105
 - lidocaine
 - epidural fentanyl effect on onset, 523
 - with epinephrine, reversal using epidural saline washout, 246
 - prevention of hypercoagulation in orthopedic surgery, 215
 - recovery, vibration sense testing of, 518
- Epidural blood patch
- cerebrovascular dynamics and, 401
 - under CT guidance, for cerebrospinal fluid leakage, 363
 - requirement, effect of intrathecal normal saline on, 301
 - for spontaneous intracranial hypotension, 582
- Epidural catheter location, confirmation by epidural pressure waveform and CT cathetergram, 337
- Epidural hematoma, in parturient who developed DIC after epidural anesthesia, 383(letter)
- Epidural pressure waveforms, for confirmation of epidural catheter location, 337
- Epidural saline washout technique, for reversal of lidocaine with epinephrine epidural anesthesia, 246
- Epidural space identification
- air for, 383(letter)
 - ultrasound localization during CSE, 64
- Epidural steroid injections
- frequency/pattern for spinal and radicular pain, 5
 - lumbar, 20-gauge Tuohy needle for, 143
 - for spinal pain, 2
- Epidural test dose, epidural pressure waveforms versus CT cathetergram, 337
- Epidurogram, for epidural catheter localization, 337
- Epinephrine
- added to intrathecal analgesia with bupivacaine and sufentanil, 473
 - with clonidine, effect on tetrodotoxin-induced nerve block, 239
 - intraarticular, in preemptive multimodal analgesia for knee arthroscopy, 125
- Erythralgia, refractory symptoms, resolution with intermittent epidural bupivacaine, 488
- Erythralgia, refractory symptoms, resolution with intermittent epidural bupivacaine, 488
- Evidence-based medicine, advantages/disadvantages of, 389

- Femoral nerve, percutaneous radiofrequency lesioning for hip joint pain and, 576
- Femoral nerve block with bupivacaine, for ACL repair, 24
- Fentanyl
with bupivacaine, in axillary block, 434
epidural, effect on epidural lidocaine anesthesia, 523
intrathecal-induced pruritus, severity in combination with local anesthetics, 252
- Fetal heart rate abnormalities, after labor analgesia, 257
- Fluoroscopy, for epidural lumbar steroid injection confirmation, 143
- Forefoot surgery, with ankle tourniquet, 184(letter)
- Formalin test, effects of formalin concentration and inhalational anesthetics in, 407
- Gabapentin
for cluster headache treatment and prophylaxis, 373
effects on acute inflammatory pain, 322
- GABA receptor, spinal, in nociception, 551
- General anesthesia
central nervous system protein function alteration, 267
versus regional anesthesia, 287(letter)
- Genitofemoral block, plus local infiltration with ropivacaine, efficacy/safety of, 348
- G-protein-coupled receptors, Ca-signaling, local anesthetic action and, 565
- Guillain-Barre syndrome, CSE for labor and Cesarean delivery, 174
- Halothane, short-term inhalation, effects on formalin concentration in formalin test, 407
- Headache
cluster, gabapentin for, 373
postdural. *See* Postdural puncture headache
- Heat/capsaicin sensitization model, pain and hyperalgesia, adenosine effects on, 414
- Hip joint pain
percutaneous radiofrequency lesioning for, 576
repeated psoas compartment blocks for, 376
- Hospital discharge
after knee arthroscopy, 2-chloroprocaine versus lidocaine and, 35
vibration sense testing in determining recovery from epidural neuraxial block, 518
- Hyperalgesia
from central sensitization, adenosine effects on, 414
gabapentin effects on, 322
- Hypercoagulation, prevention in orthopedic surgery, epidural anesthesia and, 215
- Hypotensive epidural anesthesia, for total knee replacement without tourniquet, 105
- Hysterectomy, postoperative dipyrone versus tramadol for, 118
- Ilioinguinal-iliohypogastric block, with ropivacaine efficacy/safety of, 348
for inguinal hernia repair, 348
- Infiltration
of bupivacaine during laparoscopy, 131
- with ropivacaine genitofemoral block, efficacy/safety of, 348
- Informatics, digital cameras and, 164
- Inguinal hernia repair, ropivacaine for, 348
- Injection flow rate, unilateral spinal anesthesia and, 420
- Interscalene brachial plexus block, low-dose ropivacaine for, 439
- Interstitial cystitis, lumbar sympathetic block for, 271
- Intraarticular preemptive analgesia, for arthroscopic knee repair, 125
- Intradermal needle insertion, for intractable scar pain, 532
- Intramuscular trigger point injection, water-diluted local anesthetic for, 333
- Intrascalene block, deltoid twitch as endpoint for, 182(letter), 183(letter)
- Intrathecal administration
bupivacaine. *See* Bupivacaine, intrathecal
fentanyl-induced pruritus severity and, 252
lidocaine, versus low-dose bupivacaine for in vitro fertilization, 52
saline, for postdural puncture headache severity reduction, 301
sufentanil. *See* Sufentanil, intrathecal
- Intravenous regional anesthesia, phantom limb pain during, 72
- In vitro fertilization, intrathecal low-dose bupivacaine versus lidocaine for, 52
- Iontophoresis, for topical delivery of lidocaine, 229
- Ketamine, versus clonidine for tourniquet pain prevention, 512
- Ketorlac, in preemptive multimodal analgesia for knee arthroscopy, 125
- Knee arthroscopy
epidural 2-chloroprocaine versus lidocaine for, 35
femoral nerve block with bupivacaine for, 24
intraarticular clonidine and neostigmine for, 342
patient positioning, spinal anesthesia with hypobaric bupivacaine, 24
preemptive multimodal analgesia for, 125
- Labor analgesia
fetal heart rate abnormalities after, 257
for Guillain-Barre syndrome patient, 174
intrathecal sufentanil
with bupivacaine, epinephrine addition and, 473
effect of distance from injection site to brainstem, 306
effects on oxytocin and cortisol during, 545
in natural childbirth, maternal satisfaction, 468
for patient with paroxysmal nocturnal hemoglobinuria with thrombocytopenia, 79
for preeclampsia, CSE with low dose intrathecal bupivacaine for, 46
- Laparoscopy, bupivacaine wound infiltration during, 131
- Levobupivacaine, versus racemic bupivacaine, correction factor for, 91(letter)
- Lidocaine
epidural

- versus 2-chloroprocaine for knee arthroscopy, 35
- onset, epidural fentanyl effect on, 523
- intrathecal, versus low-dose bupivacaine for in vitro fertilization, 52
- intrathecal fentanyl-induced pruritus and, 252
- reversal with epinephrine epidural anesthesia using epidural saline washout, 246
- topical delivery methods, comparison of, 229
- water-diluted, for trigger-point injection in chronic myofascial pain syndrome, 333
- Liposomal delivery systems, for local anesthetics, 61
- Local anesthetics. *See also specific local anesthetics*
- Ca-signaling G-protein-coupled receptors and, 565
- epidural
 - anastomotic leakage risk and, 111
 - reversal using epidural saline washout, 246
- intrathecal
 - with bupivacaine and sufentanil, epinephrine addition and, 473
 - low-dose bupivacaine versus lidocaine for in vitro fertilization, 52
- liposomal delivery systems, 61
- for ophthalmic procedures, 491(letter)
- severity of intrathecal fentanyl-induced pruritus and, 252
- solution preparation for infusion, 382(letter)
- topical delivery methods, comparison of, 229
- water-diluted, for trigger-point injection in chronic myofascial pain syndrome, 333
- wound infiltration, during laparoscopy, 131
- Low back pain. *See* Back pain
- Lower extremity pain, intermittent epidural bupivacaine for, 488
- Lumbar discography, case report, 263
- Lumbar epidural block, for interstitial cystitis pain relief, 271
- Lumbar peridural block quality, alkalization of ropivacaine and, 357
- Lumbar spinal trauma with rib fractures, thoracic paravertebral block for pain management, 169
- Lumbar sympathetic block, for interstitial cystitis pain relief, 271
- Lumbosacral segmental nerve blocks, diagnostic, with local anesthetics, 147
- Mandibular nerve block, computed tomography for, 382(letter)
- Maxillary nerve block, anatomic considerations, 507
- Mepivacaine
 - axillary block by nerve stimulation, effect of impulse duration on, 428
 - single and fractionated dosing, effects on thoracic epidural block, 450
 - water-diluted, for trigger-point injection in chronic myofascial pain syndrome, 333
- Mexiletine, and regional block for cancer breast surgery pain, 223
- Midhumeral canal block, 595(letter)
- Morphine
 - intraarticular, in preemptive multimodal analgesia for knee arthroscopy, 125
 - patient-controlled analgesia
 - effect of clonidine premedication for Cesarean delivery, 461
 - versus epidural analgesia, 444
- Mothers
 - morphine requirement for Cesarean delivery, clonidine premedication and, 461
 - satisfaction and pain control in natural childbirth, 468
- Multimodal therapy
 - for post-Cesarean delivery pain, 298
 - preemptive, for arthroscopic knee ligament repair, 125
- Myofascial pain syndrome, water-diluted local anesthetic for trigger-point injection, 333
- Natural childbirth, maternal satisfaction and pain control in, 468
- Needle
 - insertion depth, control by ultrasound guidance, 384(letter)
 - intradermal insertion, for intractable scar pain, 532
 - regional block, proximity to peripheral nerve, 97
 - single-segment needle-through-needle versus double-segment technique, 17
 - tip-holed spinal, 90(letter)
 - Tuohy 20-gauge, for lumbar steroid injections, 143
- Needling, of painful points for scar pain reduction, 532
- Neonatal outcome
 - after Cesarean delivery, clonidine premedication and, 461
 - of CSE with low dose intrathecal bupivacaine, 46
- Neostigmine, with clonidine, for postoperative analgesia, 342
- Nerve block. *See* Peripheral nerve block; *specific types of nerve blocks*
- Nerve stimulation
 - multiple-injection technique for axillary brachial plexus block, 12, 495
 - versus paresthesia, for axillary brachial plexus block, 100
- Nerve stimulators, impulse duration, effects on patient's perception of axillary block, 428
- Nesacaine-CE, usage changes, 558
- Neuralgia, historical aspects, 368
- Neuraxial anesthesia, epidural. *See* Epidural anesthesia
- Neuraxial bleeding risk, neutraceuticals and, 92(letter)
- Neurolytic technique. *See* Celiac plexus block, neurolytic

- Neurotoxicity, of spinal procaine, 288(letter)
- Neutraceuticals, neuraxial bleeding risk and, 92(letter)
- Nociception, role of spinal GABA receptor in, 551
- Nonsteroidal anti-inflammatory drugs, effect on osteogenesis and spinal fusion, 156, 590(letter)
- Obstetric analgesia
 - diclofenac and/or propacetamol for morphine PCA patients, 310

- fetal heart rate abnormalities after, 257
- intrathecal, with bupivacaine and sufentanil, epinephrine addition and, 473
- for patient with paroxysmal nocturnal hemoglobinuria with thrombocytopenia, 79
- Obturator nerve, percutaneous radiofrequency lesioning for hip joint pain, 576
- Onset time, effect of epidural fentanyl during epidural lidocaine anesthesia, 523
- Opioids. *See also specific opioids*
- intrathecal, for labor pain, fetal heart rate abnormalities and, 257
- lipid soluble, in cerebrospinal fluid, 286
- patient-controlled analgesia, versus epidural analgesia, 444
- subarachnoid, pruritus severity in combination with local anesthetics, 252
- Osteogenesis, nonsteroidal anti-inflammatory drugs and, 156, 590(letter)
- Outcome, patient satisfaction measurement, 196
- Outpatient surgery. *See Ambulatory surgery*
- Oxytocin during labor, intrathecal sufentanil effects on, 545
- Painful point needling, for scar pain reduction, 532
- Pain management. *See also specific analgesics and analgesic techniques*
- patient's experience with, 1, 57
- Pancreatic tumor, alcohol celiac plexus block for, reversible paraplegia after, 75
- Paralytic ileus, in schizophrenia, epidural analgesia for, 456
- Paraplegia, reversible, after celiac plexus block, 75
- Paravertebral block, thoracic, for fractured rib pain, 169
- Paresthesia, versus nerve stimulation, for axillary brachial plexus block, 100
- Paroxysmal nocturnal hemoglobinuria with thrombocytopenia, labor analgesia and, 79
- Patient-controlled analgesia (PCA)
- with axillary brachial plexus block, for complex regional pain syndrome type I, 68
- with morphine
- effect of clonidine premedication for Cesarean delivery, 461
- versus epidural analgesia, 444
- post-hysterectomy, dipyrone versus tramadol for, 118
- preemptive multimodal analgesia effects on, 125
- Patient positioning, spinal anesthesia with hypobaric bupivacaine, 24
- Patient satisfaction
- with labor analgesia in natural childbirth, 468
- measurement as outcome, 193, 196
- PCA. *See Patient-controlled analgesia*
- Pediatric regional anesthesia, safety, 93(letter)
- Peribulbar block, for phacoemulsification, 492'(letter)
- Perineural intraoperative analgesia, versus epidural analgesia for phantom limb pain, 316
- Peripheral blood flow, cigarette smoking effects on, 41
- Peripheral nerve, regional block needle proximity to, 97
- Peripheral nerve block. *See also specific types of peripheral nerve block*
- continuous, for ambulatory surgery, 209
- new stimulating catheter for, 589(letter)
- Peripheral nerve stimulation
- for axillary brachial plexus block, 499
- in brachial plexus anesthesia, 478
- for midhumeral canal block, 595(letter)
- versus paresthesia, for axillary brachial plexus block, 100
- Peripheral neuropathic pain, historical aspects, 368
- Phantom limb pain
- intravenous regional anesthesia and, 591(letter)
- preoperative epidural versus intraoperative perineural analgesia for, 316
- upper extremity, during intravenous regional anesthesia, 72
- Photography, with digital cameras, 164
- Pitkin, George Praha, spinal anesthesia and, 278
- Platelet function test, evaluation of postoperative hypercoagulability, 215
- Postdural puncture headache
- arachnoid layer role in, 182(letter)
- cerebrovascular dynamics and, 401
- CT guided aspiration and epidural blood patch for, 363
- mechanism, treatment and prevention, 293
- severity, reduction by intrathecal saline injection, 301
- in spontaneous intracranial hypotension, 582
- Postoperative analgesia
- after cesarean delivery, multimodal therapy for, 298
- after hysterectomy, dipyrone versus tramadol for, 118
- buprenorphine with local anesthetic for, 352
- efficacy/safety of ropivacaine for, 348
- epidural versus patient-controlled analgesia, 444
- femoral block with bupivacaine, 24
- intraoperative perineural versus epidural analgesia for phantom limb pain, 316
- for knee arthroscopy, intraarticular clonidine and neostigmine for, 342
- ropivacaine, for inguinal hernia repair, 348
- wound infiltration, for gynecologic laparoscopy, 131
- Postoperative apnea, preterm-infant caudal anesthesia, clonidine and, 83
- Postoperative period
- pain management. *See Postoperative analgesia*
- paralytic ileus in schizophrenia, epidural analgesia for, 456
- Postspinal musculoskeletal symptoms, in transient radicular irritation and transient neurologic syndrome, 178(letter)
- Preeclampsia, CSE with low dose intrathecal bupivacaine for, 46
- Preemptive multimodal analgesia, for arthroscopic ACL repair, 125
- Pregnancy, combined spinal and epidural anesthesia for Guillain-Barre syndrome patient, 174
- Premedication, maternal morphine requirement for Cesarean delivery, 461
- Pressure waveform, epidural, versus computed tomography cathetergram for catheter localization, 337
- Preterm-infant caudal anesthesia, postoperative apnea, clonidine and, 83
- Procaine
- intrathecal fentanyl-induced pruritus and, 252

- spinal anesthesia, neurotoxicity of, 288(letter)
- Propacetamol, and/or diclofenac after Cesarean delivery for PCA patients, 310
- Proteins, in central nervous system, functional alteration from general anesthetics, 267
- Pruritus, intrathecal fentanyl-induced, severity in combination with local anesthetics, 252
- Psoas compartment blocks, repeated, for hip pain, 376
- QT dispersion, assessment following stellate ganglion block, 539
- QT interval, assessment following stellate ganglion block, 539
- Radicular pain, epidural steroid injections for, 5
- Radiofrequency lesioning
evidence-based medicine and, 389
percutaneous, for hip joint pain, 576
for sacroiliac joint denervation, 137, 592(letter)
for spinal pain management, 394
- Randomized controlled trial, radiofrequency procedures for spinal pain, 394
- Rats
effects of formalin concentration and inhalational anesthetics in formalin test, 407
tetrodotoxin-induced nerve block, effects of adrenergic agonists and antagonists on, 239
- Reflex sympathetic dystrophy, axillary brachial plexus block with PCA, 68
- Regional anesthesia. *See also specific regional anesthetic techniques*
versus general anesthesia, 287(letter)
intravenous, phantom limb sensation and, 591(letter)
intravenous lidocaine, clonidine versus ketamine for tourniquet pain prevention, 512
patient satisfaction measurement, 196
pediatric, safety of, 93(letter)
peripheral nerve stimulation in brachial plexus anesthesia, 478
repeated psoas compartment blocks for hip pain, 376
research, objective versus subjective, 593(letter)
- Regional block needle, proximity to peripheral nerve, 97
- Respiratory depression, intrathecal sufentanil, effect of distance from injection site to brainstem, 306
- Reversal, of lidocaine with epinephrine epidural anesthesia using epidural saline washout, 246
- Reversible paraplegia, after celiac plexus block, 75
- Rib fracture pain, with lumbar spine trauma, thoracic paravertebral block for, 169
- Ropivacaine
alkalinization, lumbar peridural block quality and, 357
axillary block by nerve stimulation, effect of impulse duration on, 428
continuous peripheral nerve block, for ambulatory surgery, 209
epidural, determination of recovery by vibration sense testing, 518
for inguinal hernia repair, 348
intraarticular, in preemptive multimodal analgesia for knee arthroscopy, 125
low-dose, for interscalene brachial plexus block, 439
regional block and oral mexiletine for cancer breast surgery pain, 223
- Sacroiliac joint, radiofrequency denervation for sacroiliac syndrome, 137
- Saline
dilution of local anesthetic, for trigger-point injection, 333
epidural washout, for reversal of lidocaine with epinephrine epidural anesthesia, 246
intrathecal injection, reduction of postdural puncture headache severity, 301
- Saphenous nerve block, paravenous approach, 504
- Saphenous vein, paravenous saphenous nerve block and, 504
- Scar pain, intractable, intradermal needle insertion for, 532
- Schizophrenia with postoperative paralytic ileus, epidural analgesia for, 456
- Sciatic nerve block, tetrodotoxin-induced, effects of adrenergic agonists and antagonists on, 239
- Segmental nerve blocks, diagnostic lumbosacral with local anesthetics, 147
- Shoulder arthroscopy, interscalene brachial plexus block with low-dose ropivacaine, 439
- Skin anesthesia, topical lidocaine delivery methods for, 229
- Skin temperature, epidural anesthesia effects on, 527
- Smoking
effect on vasodilation induced by sympathetic block, 41
sympathetic block-induced vasodilation and, 41
- Spinal anesthesia
assessment, futility of using sharp pinprick or cold for, 385(letter)
historical aspects, 278
with hypobaric bupivacaine for knee arthroscopy, patient positioning and, 30
low-dose
bupivacaine versus lidocaine for in vitro fertilization, 52
for Cesarean delivery, 180(letter), 181(letter)
using CSE for Cesarean delivery, 588(letter)
procaine, neurotoxicity of, 288(letter)
pruritus, severity in combination with local anesthetics, 252
unilateral, injection flow rate and, 420
- Spinal fusion, nonsteroidal anti-inflammatory drugs and, 156, 590(letter)
- Spinal injury, thoracic paravertebral block for, 169
- Spinal needle, tip-holed, 90(letter)
- Spinal pain
decision to use epidural steroid injections, 2
epidural steroid injections, frequency and pattern of, 5
radiofrequency procedures for, 394
- Spontaneous intracranial hypotension, postdural headache in, 582
- Stellate ganglion block
computerized assessment of QT interval and dispersion after, 539

- near-infrared spectroscopic evaluation of, 186(letter)
- vasodilation
 - cigarette smoking effects on, 41
 - effect of clonidine addition on, 329
- Steroid, epidural injections. *See* Epidural steroid injections
- Sufentanil, intrathecal
 - with bupivacaine, effect of epinephrine addition on, 473
 - effect of distance from injection site to brainstem, 306
 - effects on oxytocin and cortisol during labor, 545
 - for labor pain, fetal heart rate abnormalities and, 257
- Suprascapular nerve block, anterior approach for perioperative analgesia, 288(letter)
- Surgical wound, bupivacaine infiltration during laparoscopy, 131
- Swine, CSF loss and epidural blood patch, effects on cerebral blood flow, 401
- Sympathetic block
 - with hyperbaric bupivacaine, injection flow rate and, 420
 - vasodilation
 - cigarette smoking effects on, 41
 - effect of clonidine addition on, 329
- Tetrodotoxin-induced nerve block, adrenergic agonists and antagonists, 239
- Thermal injury pain, gabapentin effects on, 322
- Thermal sensation, epidural anesthesia effects on, 527
- Thermoregulation, epidural anesthesia effects on, 527
- Thoracic epidural block, single and fractionated mepivacaine dosing for, 450
- Thrombocytopenia, with paroxysmal nocturnal hemoglobinuria, labor analgesia and, 79
- Total knee replacement without tourniquet, hypotensive epidural anesthesia for, 105
- Tourniquet pain prevention, clonidine versus ketamine for, 512
- Tramadol, versus dipyrone for post-hysterectomy analgesia, 118
- TRAM flap, epidural versus patient-controlled analgesia for, 444
- Transfusion, for total knee replacement without tourniquet, hypotensive epidural anesthesia for, 105
- Transient anterior spinal artery syndrome, after postoperative epidural analgesia, 274
- Transient neurologic syndrome
 - from spinal procaine, 288(letter)
 - symptoms in, 178(letter)
- Transient radicular irritation
 - limiting, 177(letter)
 - symptoms in, 178(letter)
- Trigeminal neuralgia mandibular nerve block, computed tomography for, 382(letter)
- Trigger point
 - injection in chronic myofascial pain syndrome, water-diluted local anesthetic for, 333
 - needling, for scar pain reduction, 532
- Tuohy needle, 20-gauge, for lumbar steroid injections, 143
- Ulnar nerve localization, multiple-injection technique for axillary block and, 12
- Ultrasound
 - guidance
 - to control needle insertion depth, 384(letter)
 - for neurolytic celiac plexus block endoscopic technique, 159
 - localization, of epidural space during CSE, 64
- Vasodilation from sympathetic block
 - effect of clonidine addition on, 329
 - smoking effects on, 41
- Vibration sense testing, in determining recovery from epidural neuraxial block, 518
- Water-diluted local anesthetic, for trigger-point injection in chronic myofascial pain syndrome, 333
- Wet tap, effect of intrathecal normal saline in reducing postdural puncture headache severity, 301
- Yohimbine, effect on tetrodotoxin-induced nerve block, 239
